---

### SKILLS

---

JavaScript, Node, React, Redux, Express, PostgreSQL, Git, Algorithms, APIs, HTML5, CSS3, jQuery, WordPress, PHP, Photoshop, Illustrator, Hootsuite

---

### PROJECTS

---

#### Madify

JavaScript, React, CSS3

A Mad Libs inspired phrasal template word game that prompts user for a list of words to be substituted for blanks in a story. Interacts with API to fetch stories. Rendered, styled and brought to life with React and CSS3.

#### Calculator

JavaScript, React, CSS3

A functional calculator that performs simple arithmetic operations. Works with button clicks and keyboard presses. Simple design inspired after Google's calculator app.

---
